

Valga Gymnasium Estonia

Our school is strong in..

Valga Gymnasium is small school which teaches classes 10-12. The school has 95 years of history.

At school we have a lot of interesting activities i.e (Photography club, mixed youth choir, sports club).

Sometimes we also have workshops from different Universities at school. Valga Gymnasium is a member of Estonian UNESCO Association. We have friends-school in Ghana.

The students have shown interest in technology. We have a new computer classroom, a 3D printer, 3D scanner.

Also we have new laboratory and robotics equipment.

We utilise this new technology to teach students 3D modelation, programming, the making of apps and robotics.

We would like that in 10 years the world...

- * safer
- * tolerant
- economical consuming
- friendly
- walk more
- education for all
- sort your gargbage
- save energy
- use less plastic bags
